

On Site Built In Microscope Explosives Detection Equipment Ergonomic Design

Our Product Introduction

for more products please visit us on spectralanalyser.com

Basic Information

- Place of Origin: CHINA
- Brand Name: JINSP
- Certification: CE
- Model Number: RS1500
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Customized Packaging
- Delivery Time: 70-90working days
- Payment Terms: T/T
- Supply Ability: 20 PCS/70-90 days

Product Specification

- Microscope: Able To Detect Small Suspicious Particles On-site By Built-in Microscope
- Identification Time: Analyze And Identify Substance In About 3 Seconds Typically
- Database: Narcotics&Precursors, Explosives, Dangerous Liquid, Gem.etc
- Power Supply: Rechargeable Lithium Battery, 4-6h
- Languages: Support For Multiple Languages
- Connection: Wi-Fi, 4G, Bluetooth, Micro-USB
- Penetration: Brown Glass, Some Envelopes And Plastic Packaging
- Size: 160mm* 84mm * 30mm
- Highlight: **Built In Microscope Explosives Detection Equipment**

Product Description

Detect Narcotics/Explosives On-site Built-in Microscope Narcotics/Explosives Detector

Product Description:

One of the standout features of this product is its automatic calibration, which eliminates the need for manual operation or external accessories. This ensures that the device is always ready to use, with minimal downtime or inconvenience to the user. In addition, our Handheld Raman Identifier is equipped with a built-in microscope, which allows users to detect even small and hard-to-see particles on-site. This feature is particularly useful for law enforcement personnel, as it enables them to quickly and effectively assess potentially hazardous materials in the field.

Powered by a rechargeable lithium battery, our Handheld Raman Identifier offers up to 4-6 hours of continuous use on a single charge. This makes it an ideal choice for professionals who need a portable yet durable device that can keep up with their demanding work schedule.

Finally, our Handheld Raman Identifier is able to analyze and identify substances in about 3 seconds typically, thanks to its advanced spectroscopic technology. This enables users to quickly assess the safety of a given substance, and take appropriate action as needed. Overall, our Handheld Raman Identifier is an essential tool for anyone involved in law enforcement, customs, or security. With its reliable performance, intuitive operation, and advanced features, it is sure to make a valuable addition to any professional's toolkit.

Features:

Product Name: Narcotics/Explosives Detector

Penetration: Brown glass, some envelopes and plastic packaging

Identification Time: Analyze and identify substance in about 3 seconds typically
Calibration: Automatic calibration without manual operation and external accessories
Languages: Support for multiple languages
Size: 160mm* 84mm * 30mm
Features: Handheld Raman Spectrometer, 1064nm Handheld Raman, 1064nm Handheld Raman

Technical Parameters:

Design	Handheld and ergonomic design
Penetration	Brown glass, some envelopes and plastic packaging
Microscope	Able to detect small suspicious particles on-site by built-in microscope
Library	Extensive library-adding new spectrograms Built-in WIFI,4G,camera and barcode scanner
Size	160mm* 84mm * 30mm
Spectrum Library	Total spectrum library is 13,000 species, and the contraband spectrum library is 3,000 species
Calibration	Automatic calibration without manual operation and external accessories
Power Supply	Rechargeable lithium battery,4-6h
Application Field	Narcotics and precursors, Chemical weapons
Result	Name,Property,Spectrum,MSDS,Result-report

Characteristics

Automatic calibration without manual operation and external accessories

Able to detect small suspicious particles on-site by built-in microscope

Assess the risk of ignition and stop the laser automatically

Penetrate brown glass, some envelopes and plastic packaging

Small and light, it can be carried and operated easily

Total spectrum library is > 13,000 species, and the contraband spectrum library is > 3,000 species

Support for multiple languages

Applications:

The JINSP RS1500 reports results including the name, property, spectrum, MSDS, and result-report, ensuring that users have all

necessary information at their fingertips. The power supply is a rechargeable lithium battery, providing 4-6 hours of continuous use. Connection options include Wi-Fi, 4G, Bluetooth, and Micro-USB.

The JINSP RS1500 is ideal for a variety of occasions and scenarios, including but not limited to:

Airport security checkpoints

Border control

Law enforcement raids and investigations

Large events or gatherings

Forensic laboratories

With its 1064nm Handheld Raman technology, the JINSP RS1500 offers unmatched accuracy and reliability in detecting narcotics and explosives. Upgrade your security measures with the JINSP RS1500 Handheld Raman Spectrometer.

Application Field

✓ Narcotics and precursors

Heroin, Morphine, Methamphetamine, Ketamine, cocaine, MDMA, Fentanyl, Cannabinoid, Ephedrine, Safrole, etc.

✓ Chemical weapon

GB, GD, VX, HD, etc.

✓ Flammable and toxic liquids

Gasoline, Kerosene, Diesel, Methanol, Ethanol, nitromethane, Acetone, Benzene, Toluene, Acetonitrile, Tetrahydrofuran, Chloroform, etc.

✓ Explosives

Ammonium nitrate, Potassium nitrate, C4, Composition B, TNT, RDX, HMX, TNP, TATP, etc.

✓ Other

Starch, Sucrose, Vitamin C, Paracetamol, Analgin, Polyethylene, Polystyrene, etc.

The RS1500 detects liquid and small particle (panel interface can be switched to multiple languages)

Support and Services:

The Narcotics/Explosives Detector product comes with technical support and services to help ensure optimal performance and customer satisfaction. These support and services include:

Onsite training for end-users and operators

24/7 technical support via phone or email

Preventive maintenance and calibration services

Repair and replacement services for defective components

Software updates and upgrades

Documentation and user manuals

Access to an online knowledge base and community forum

Our experienced technical support team is dedicated to providing timely and effective assistance to our customers, and we strive to exceed their expectations with every interaction.

Packing and Shipping:

Product Packaging:

- 1 Narcotics/Explosives Detector device
- 1 Power cord and adapter
- 1 User manual

FAQ:

Q1: What is the brand name of this Narcotics/Explosives Detector?

A1: The brand name of this product is JINSP.

Q2: What is the model number of this Narcotics/Explosives Detector?

A2: The model number of this product is RS1500.

Q3: Does this product have any certification?

A3: Yes, this product is CE certified.

Q4: Where is this Narcotics/Explosives Detector manufactured?

A4: This product is manufactured in China.

Q5: What is the minimum order quantity for this product?

A5: The minimum order quantity for this product is 1.

Q6: Is the price negotiable?

A6: Yes, the price is negotiable.

Q7: What are the payment terms for this product?

A7: The payment terms for this product are T/T.

Q8: What is the supply ability of this product?

A8: The supply ability of this product is 20 PCS/70-90 days.

Q9: How long does it take to deliver this product?

A9: The delivery time for this product is 70-90 working days.

Q10: What are the packaging details for this product?

A10: The packaging details for this product are customized packaging.
