

1064nm Laser Portable Narcotics Detector Rapid And Accurate Identification

Our Product Introduction

for more products please visit us on spectralanalyser.com

Basic Information

- Place of Origin: CHINA
- Brand Name: JINSP
- Certification: CE ISO9001
- Model Number: RS1500
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Customized Packaging
- Delivery Time: 30-40working days
- Payment Terms: T/T
- Supply Ability: 20 PCS/30-40 days

Product Specification

- Laser: 1064nm
- Size: 160mm* 84mm * 30mm
- Data Format: SPC /TEXT / JPEG / PDF
- Power: Rechargeable Li-ion Battery
- Highlight: **1064nm Laser Portable Narcotics Detector, 1064nm Laser handheld narcotics detector, Accurate Identification Portable Narcotics Detector**

Product Description

Product Description:

The Narcotics/Explosives Detector also supports multiple languages, making it accessible to users from various regions and backgrounds. This feature allows for easy understanding and operation of the device regardless of the user's language preference. The device is powered by a rechargeable lithium battery, which provides a continuous operating time of 4-6 hours. This ensures that the device remains operational throughout the day, even during extended use.

The Handheld Raman Analyzer is designed to be ergonomic and portable, allowing for ease of use in any situation. Its compact design ensures that it can be carried anywhere, making it ideal for use in the field or during transport.

The Handheld Raman for dangerous liquid detection is a must-have for law enforcement agencies, border control, and military personnel who need to identify and detect potentially hazardous and prohibited substances. It is also suitable for use in pharmaceutical manufacturing, food safety inspection, and other industries where the detection of dangerous liquids is necessary.

Overall, the Narcotics/Explosives Detector is a reliable, efficient, and user-friendly device that provides accurate results in a matter of seconds. Its handheld and ergonomic design, automatic calibration, and support for multiple languages make it a valuable tool for a wide range of applications.

Features:

Product Name: Narcotics/Explosives Detector
 Penetration: Brown glass, some envelopes, and plastic packaging
 Design: Handheld and ergonomic design
 Result: Name, Property, Spectrum, MSDS, Result-report
 Database: Narcotics&Precursors, Explosives, Dangerous Liquid, Gem etc.
 Laser: 1064nm

Introducing the Handheld Raman Spectrometer, also known as the Handheld Raman Spectrometer or Handheld Raman Identifier. This powerful device can penetrate brown glass, some envelopes, and plastic packaging with ease, making it perfect for detecting narcotics and explosives. Its ergonomic design allows for easy handling and portability. With its comprehensive database of Narcotics&Precursors,

Explosives, Dangerous Liquids, Gem, etc. It provides accurate and reliable results for property identification. Its 1064nm laser delivers precise and fast identification of substances. Get your Handheld Raman Spectrometer today and ensure safety and security wherever you go.

Characteristics

Automatic calibration without manual operation and external accessories

Able to detect small suspicious particles on-site by built-in microscope

Assess the risk of ignition and stop the laser automatically

Penetrate brown glass, some envelopes and plastic packaging

Small and light, it can be carried and operated easily

Total spectrum library is > 13,000 species, and the contraband spectrum library is > 3,000 species

Support for multiple languages

Technical Parameters:

No	Item	Description
1	Laser	1064nm
2	Size	160mm* 84mm * 30mm
3	Weight	730g
4	Connection	Wi-Fi,4G, Bluetooth, Micro-USB
5	Power Supply	Rechargeable lithium battery,4-6h
6	Database	Narcotics&Precursors, Explosives, Dangerous Liquid, Gem etc
7	Result	Name, Property, Spectrum, MSDS, Result-report

Applications:

The JINSP RS1500 has an extensive library of spectrograms and the ability to add new ones, ensuring accurate and rapid identification of materials. Additionally, this device is equipped with built-in WIFI, 4G, a camera, and a barcode scanner for added convenience.

The JINSP RS1500 is capable of automatic calibration without manual operation or external accessories, making it easy to use. It is also able to penetrate brown glass, some envelopes, and plastic packaging, making it a versatile tool for on-site detection.

Whether you're dealing with narcotics or explosives, the JINSP RS1500 is an indispensable tool for quick and accurate identification. With a minimum order quantity of 1 and negotiable pricing, it's an affordable solution for any organization looking to improve its security measures.

Application Field

✓ Narcotics and precursors

Heroin, Morphine, Methamphetamine, Ketamine, cocaine, MDMA, Fentanyl, Cannabinoid, Ephedrine, Safrole, etc.

✓ Chemical weapon

GB, GD, VX, HD, etc.

✓ Flammable and toxic liquids

Gasoline, Kerosene, Diesel, Methanol, Ethanol, nitromethane, Acetone, Benzene, Toluene, Acetonitrile, Tetrahydrofuran, Chloroform, etc.

✓ Explosives

Ammonium nitrate, Potassium nitrate, C4, Composition B, TNT, RDX, HMX, TNP, TATP, etc.

✓ Other

Starch, Sucrose, Vitamin C, Paracetamol, Analgin, Polyethylene, Polystyrene, etc.

The RS1500 detects liquid and small particle (panel interface can be switched to multiple languages)

Support and Services:

The Narcotics/Explosives Detector product is equipped with comprehensive technical support and services to ensure optimal performance and customer satisfaction.

Our team of experienced professionals provides:

24/7 customer support hotline

On-site & remote installation and training

Remote technical support and troubleshooting

Regular software updates and maintenance

Customized training programs for specific needs

Access to a knowledge base and user manuals

Our technical support and services are designed to minimize downtime and ensure maximum efficiency and effectiveness of the Narcotics/Explosives Detector product.

Packing and Shipping:

Product Packaging:

This Narcotics/Explosives Detector product will be securely packaged to ensure safe transport and delivery. The package will include:

The Narcotics/Explosives Detector device

A user manual

A charging cable

A carrying case

Shipping:

This product will be shipped via a reputable courier service such as DHL or FedEx. The shipping cost will be calculated based on the destination and delivery speed selected by the customer during the checkout process. Customers can expect their package to arrive within the estimated delivery time provided by the courier service. A tracking number will be provided to the customer once the package has been shipped.

FAQ:

What is the brand name of this product?

The brand name of this product is JINSP.

What is the model number of this product?

The model number of this product is RS1500.

Is this product certified?

Yes, this product is certified with CE.

Where is this product made?

This product is made in China.

What is the minimum order quantity for this product?

The minimum order quantity for this product is 1.

JINSP Company Ltd.
