

Precise Frequency Handheld Raman Spectrometer With Wireless Spectrum Analyzer

Our Product Introduction

for more products please visit us on spectralanalyser.com

Basic Information

- Place of Origin: CHINA
- Brand Name: JINSP
- Certification: CE ISO9001
- Model Number: RS1000
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: International Shipping Package
- Delivery Time: 30-40 working days
- Payment Terms: T/T
- Supply Ability: 200 PCS/30-40 working days

Product Specification

- Laser: 785nm
- Size: 176* 87 * 33mm
- Power Supply: Rechargeable Li-ion Battery
- Communication Interface: USB
- Highlight: **Precise Frequency Handheld Raman Spectrometer**
, Precise Frequency portable raman analyzer ,
Wireless Handheld Raman Spectrometer

Product Description

RS1000 785nm Handheld Raman Spectrometer System

The 785nm Narcotics/Explosives Detector is highly sensitive and can detect even trace amounts of narcotics and explosives. This is essential for identifying and preventing potential threats, as well as for ensuring the safety and security of individuals and communities.

The device is also durable and reliable, designed for use in harsh environments and extreme temperatures. It is built to withstand the wear and tear of daily use and is backed by a manufacturer's warranty, providing peace of mind for users.

In summary, the 785nm Narcotics/Explosives Raman Detector is an essential tool for law enforcement and security professionals. Its Compact Spectrum Analyzer, Handheld Signal Analyzer, and Handheld RF Spectrum Analyzer capabilities make it highly effective in detecting and identifying a wide range of narcotics and explosives. Its ease of use, portability, sensitivity, durability, and reliability make it a must-have device for any organization concerned with safety and security.

Key Features:

Accurate Identification: Utilizes advanced machine learning algorithms, ensuring high accuracy

Rapid Response: Identification can be completed within seconds

No Sampling Required: No need to transfer raw materials to the sampling room, to avoid sample contamination

Compact and Lightweight: Portable and flexible for use in various on-site locations such as warehouses, preparation rooms, and production workshops

Technical Parameters:

Product Name	Narcotics/Explosives Detector
Type	Handheld Spectrum Analyzer
Power Source	Battery-powered Spectrum Analyzer
Weight	Less than 0.5 kg
Display	5-inch color touchscreen
Detection Modes	Narcotics detection mode, Explosives detection mode
Alarm Indication	Visual and audible
Battery Life	Up to 8 hours

Typical Applications:

One of the main advantages of the RS1000 is its portability. It can be easily carried in a backpack or vehicle, making it an ideal tool for mobile applications. It is perfect for use in airports, train stations, seaports, border crossings, and other locations where security is a top priority.

The RS1000 is also highly reliable and accurate. It uses advanced technology to detect even trace amounts of narcotics and explosives, ensuring that no potential threats are overlooked. Additionally, it is certified by CE, which ensures that it meets the highest standards of quality and safety.

In conclusion, the JINSP RS1000 is an essential tool for any organization that needs to detect narcotics and explosives. Its portability, reliability, and accuracy make it an ideal choice for a wide range of occasions and scenarios. Whether you are a law enforcement agency, security personnel, or a private organization, the RS1000 is the perfect solution for preventing the use of illegal substances and explosives.

Perform 100% package-by-package inspection

Identification Instrument

RS1000

Technical Features

『 Quick response 』

Identification can be completed within a few seconds

『 Response quickly 』

The identification can be completed within a few seconds

『 Compact and lightweight 』

It can be moved flexibly in warehouses, material preparation rooms, and production workshops etc.

『 Real-time sampling 』

No need to sampling, simple and safe

『 Identification accuracy 』

Advanced machine learning algorithm supports accurate recognition, strong specificity

Wide Detection Range

Chemical raw materials

aspirin, acetaminophen, folic acid, nicotinamide, etc.

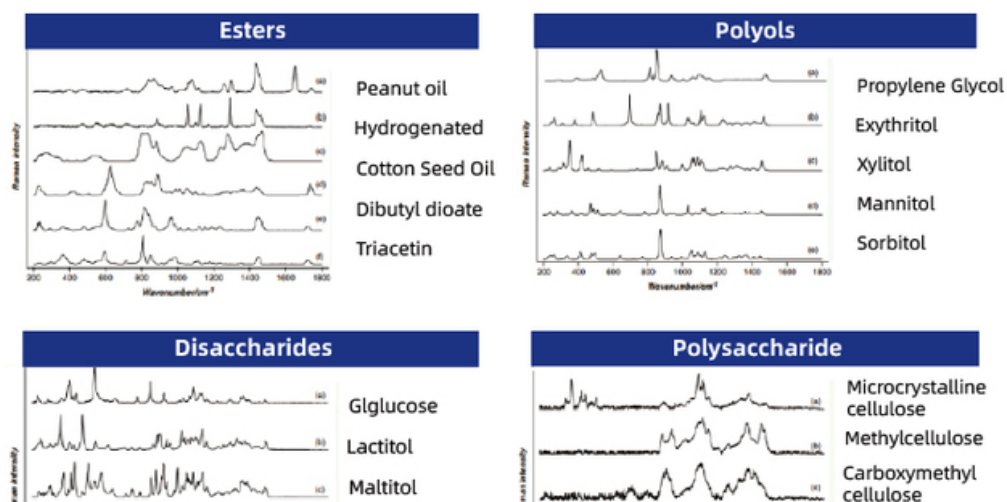

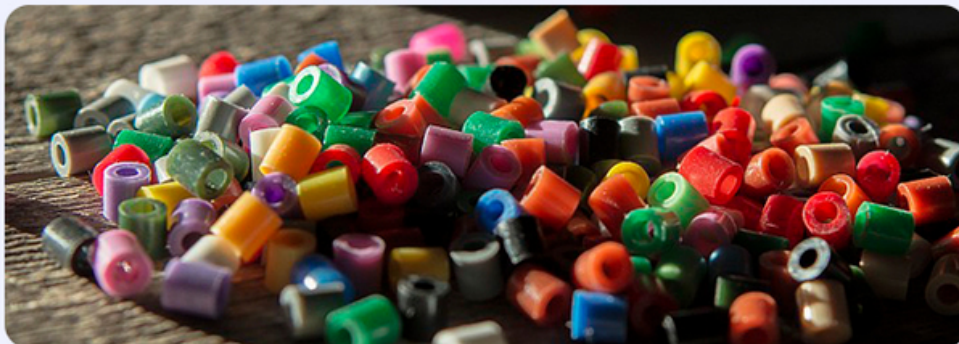

Pharmaceutical excipients

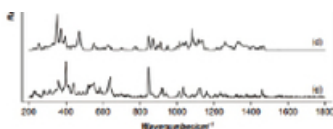

salts,alkalis,sugars,esters,alcohols,phenols,etc.

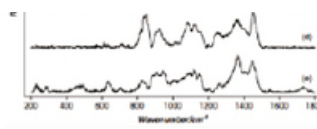

Packaging materials

polyethylene,polypropylene,polycarbonate,ethylene-vinyl acetate copolymer, etc.

lactose
Sucrose

Carboxypropyl
cellulose
Carboxypropyl

Application Field

✓ Narcotics & precursors

Heroin, Methyl amphetamine (Ice), Ephedrine, Acetone, etc.

✓ Explosives

TNT, RDX, TATP, Nitra mine, etc.

✓ Dangerous Liquid

Ethanol, Gasoline, Hydrogen peroxide, Nitric acid, etc.
Gem: Diamond, Agate, Jade, etc.

✓ Industrial raw materials

PET, PP, PS, etc.

Support and Services:

Our Narcotics/Explosives Detector product comes with complete technical support and services to ensure that it functions optimally. Our team of experts is available to provide assistance to customers with any questions or concerns about the product.

Our technical support services include:

- Installation support
- Product Training
- Product Troubleshooting
- Warranty support

We also offer various service plans to help customers maintain and repair their Narcotics/Explosives Detector products. These plans include:

- Preventive maintenance
- Calibration and testing

Repair services

Replacement parts

Our goal is to provide our customers with the best possible support and services for their Narcotics/Explosives Detector product to ensure that it continues to meet their needs and expectations.

Packing and Shipping:

Product Packaging:

The Narcotics/Explosives Detector product will be securely packaged in a sturdy box with foam inserts to ensure safe transit. The product will also be accompanied by a user manual and a power adapter.

Shipping:

The product will be shipped via a trusted courier service with tracking information provided to the customer. Shipping times may vary depending on the destination, but we strive to process and ship all orders within 2-3 business days. Customers may be responsible for any import taxes or fees associated with the shipment.

FAQ:

Q: What is the brand name of the Narcotics/Explosives Detector?

A: The brand name of the Narcotics/Explosives Detector is JINSP.

Q: What is the model number of the Narcotics/Explosives Detector?

A: The model number of the Narcotics/Explosives Detector is RS1000.

Q: Is the Narcotics/Explosives Detector certified?

A: Yes, the Narcotics/Explosives Detector is certified with CE.

Q: Where is the Narcotics/Explosives Detector made?

A: The Narcotics/Explosives Detector is made in China.

Q: What is the minimum order quantity for the Narcotics/Explosives Detector?

A: The minimum order quantity for the Narcotics/Explosives Detector is 1 unit.

Q: Is the price for the Narcotics/Explosives Detector negotiable?

A: Yes, the price for the Narcotics/Explosives Detector is negotiable.

Q: What are the payment terms for the Narcotics/Explosives Detector?

A: The payment terms for the Narcotics/Explosives Detector are T/T.

Q: What are the packaging details for the Narcotics/Explosives Detector?

A: The packaging details for the Narcotics/Explosives Detector are customized packaging.
