

## Fast and Accurate Signal Analysis with Our Field Spectrum Analyzer

### Our Product Introduction

for more products please visit us on [spectralanalyser.com](http://spectralanalyser.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: JINSP
- Certification: CE ISO9001
- Model Number: RS1500
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Customized Packaging
- Delivery Time: 70-90working days
- Payment Terms: T/T
- Supply Ability: 20 PCS/70-90 days

#### Product Specification

- Weight: Less Than 1 Kg
- Laser: 1064nm
- Operating Temperature: 0-40 Degrees Celsius
- Display: LCD Screen
- Detection Time: Less Than 10 Seconds
- Power Supply: Rechargeable Battery
- Detection Substances: Narcotics And Explosives
- Highlight: **Accurate Field Spectrum Analyzer, Fast Field Spectrum Analyzer, Field Spectrum Analyzer Signal Analysis**

## Product Description

### Product Description:

The Narcotics/Explosives Detector is a powerful Field Spectrum Analyzer that is capable of detecting a wide range of substances, including narcotics, explosives, chemicals, and more. It uses advanced technology to analyze and identify the unique spectral signature of different substances, making it an incredibly accurate and reliable detection tool.

One of the key features of the Narcotics/Explosives Detector is its Wireless Spectrum Analyzer capabilities. This allows users to remotely monitor and control the device using a smartphone or tablet, making it easy to use in the field. The wireless connectivity also enables real-time data sharing and analysis, making it an effective tool for large-scale operations.

The Narcotics/Explosives Detector is also designed to be portable and easy to use. Its compact size and lightweight construction make it easy to carry and transport, while its intuitive user interface makes it simple to operate. The device can also be customized to suit specific user requirements, with a range of accessories and add-ons available.

One of the standout features of the Narcotics/Explosives Detector is its versatility. It can be used in a wide range of environments, from airports and train stations to schools and public venues. It is also effective in outdoor settings, making it an ideal tool for border patrol and other law enforcement operations.

The Narcotics/Explosives Detector is the ultimate solution for detecting hidden threats and substances in any environment. Its advanced technology, wireless capabilities, and portability make it an indispensable tool for law enforcement agencies, military personnel, and security officers around the world.

No	Item	Description
----	------	-------------

1	Laser	1064nm
2	Size	160mm* 84mm * 30mm
3	Weight	730g
4	Connection	Wi-Fi,4G,Bluetooth,Micro-USB
5	Power Supply	Rechargeable lithium battery,4-6h
6	Database	Narcotics&Precursors,Explosives,Dangerous Liquid,Gem.etc
7	Result	Name,Property,Spectrum,MSDS,Result-report

### Technical Highlights

- Handheld and ergonomic design
- Analyze and identify substance in about 3 seconds typically
- Extensive library-adding new spectrograms Built-in WIFI,4G,camera and barcode scanner
- Accurate and rapid identification of suspicious substance:Material name and spectrogram
- Automatic calibration without manual operation and external accessories
- Able to detect small suspicious particles on-site by built-in microscope
- Assess the risk of ignition and stop the laser automatically
- Penetrate brown glass, some envelopes and plastic packaging
- Small and light, it can be carried and operated easily
- Total spectrum library is 13,000 species, and the contraband spectrum library is 3,000 species
- Support for multiple languages

# Characteristics

Automatic calibration without manual operation and external accessories

Able to detect small suspicious particles on-site by built-in microscope

Assess the risk of ignition and stop the laser automatically

Penetrate brown glass, some envelopes and plastic packaging

Small and light, it can be carried and operated easily

Total spectrum library is > 13,000 species, and the contraband spectrum library is > 3,000 species

Support for multiple languages

## Applications:

The JINSP RS1500 is the perfect tool for a range of different applications and scenarios. Whether you are a security professional working

in a high-risk environment, a customs officer tasked with screening passengers and cargo at a busy port, or a law enforcement officer responsible for maintaining public safety, this product is an essential piece of equipment that you cannot afford to be without.

One of the key features of the JINSP RS1500 is its portability. This is a handheld RF Spectrum Analyzer that is easy to carry and use, making it the perfect tool for use in the field. Whether you are conducting a search operation in a remote location or screening passengers at a busy airport, the RS1500 is a versatile and reliable device that can be used in a range of different situations. The JINSP RS1500 is also incredibly easy to use. With its user-friendly interface and simple operation, this device can be used by anyone, regardless of their level of technical expertise. Whether you are a seasoned security professional or a novice user, the RS1500 is a product that you can rely on to get the job done.

## Application Field

### ✓ Narcotics and precursors

Heroin, Morphine, Methamphetamine, Ketamine, cocaine, MDMA, Fentanyl, Cannabinoid, Ephedrine, Safrole, etc.

### ✓ Chemical weapon

GB, GD, VX, HD, etc.

### ✓ Flammable and toxic liquids

Gasoline, Kerosene, Diesel, Methanol, Ethanol, nitromethane, Acetone, Benzene, Toluene, Acetonitrile, Tetrahydrofuran, Chloroform, etc.

### ✓ Explosives

Ammonium nitrate, Potassium nitrate, C4, Composition B, TNT, RDX, HMX, TNP, TATP, etc.

### ✓ Other

Starch, Sucrose, Vitamin C, Paracetamol, Analgin, Polyethylene, Polystyrene, etc.

The RS1500 detects liquid and small particle (panel interface can be switched to multiple languages)

# No Sampling Required

It can directly detect through woven bags, plastic, glass, paper packaging, and other types of packaging.

Woven Bag

Plastic Packaging

Plastic Barrel

## Support and Services:

Our Narcotics/Explosives Detector product comes with top-of-the-line technical support and services to ensure maximum performance and reliability. We offer:

24/7 customer support hotline

On-site installation and training

Regular software updates

Calibration and maintenance services

Repair and replacement services

Remote troubleshooting and diagnostics

Our experienced technical team is dedicated to providing personalized assistance and timely solutions to any issues that may arise. We are committed to ensuring our customers are fully satisfied with their Narcotics/Explosives Detector product and are able to effectively utilize its advanced features and capabilities.

## Packing and Shipping:

Product Packaging:

One Narcotics/Explosives Detector Unit

Power Adapter

USB Cable

Carrying Case

User Manual

Shipping:

Ships within 1-2 business days

Free standard shipping within the United States

International shipping is available at an additional cost

The package is discreet and does not indicate the nature of the product

## FAQ:

**What is the brand name of the narcotics/explosives detector?**

The brand name is JINSP.

**What is the model number of the narcotics/explosives detector?**

The model number is RS1500.

**Is the narcotics/explosives detector certified?**

Yes, the detector is CE certified.

**Where is the narcotics/explosives detector manufactured?**

The detector is manufactured in China.

**What is the minimum order quantity for the narcotics/explosives detector?**

The minimum order quantity is 1.

**Is the price for the narcotics/explosives detector negotiable?**

Yes, the price is negotiable.

**What are the payment terms for the narcotics/explosives detector?**

The payment terms are T/T.

**What is the supply ability for the narcotics/explosives detector?**  
The supply ability is 20 PCS/70-90 days.

**What is the delivery time for the narcotics/explosives detector?**  
The delivery time is 70-90 working days.

**What are the packaging details for the narcotics/explosives detector?**  
The packaging details are customized packaging.
