

## Portable Handheld Narcotics and Precursors Analyzer with 1064nm Laser and Result-report

### Our Product Introduction

for more products please visit us on [spectralanalyser.com](http://spectralanalyser.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: JINSP
- Certification: CE
- Model Number: RS1500
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Customized packaging to meet the needs of our customers. This can include individual carrying cases, bulk packaging for larger orders, and other options as needed.
- Delivery Time: 70-90working days
- Payment Terms: T/T
- Supply Ability: 20 PCS/70-90 days

#### Product Specification

- Features:
  1. Product Name: Handheld Raman Spectrometer
  2. Result: Name,Property,Spectrum,MSDS,Result-report
  3. Power Supply: Rechargeable Lithium Battery,4-6h
  4. Laser: 1064nm
- Application Field: Narcotics And Precursors,Chemical Weapons,Flammable And Toxic Liquids
- Weight: 730g
- Size: 176mm\* 87mm \* 33mm
- Database: Narcotics&Precursors,Explosives,Dangerous Liquid,Gem.etc
- Operation: 5' Touch Screen,big Button,intuitive Man-machine Interface Operation
- Result: Name,Property,Spectrum,MSDS,Result-report

## Product Description

### Product Description:

Our Handheld Narcotics and Precursors Analyzer is available in a supply ability of 20 units per 70-90 days. This ensures that our customers can get their orders delivered promptly, and they can rely on us for their security needs. The product falls under the Product Category of Handheld Analyzer, making it an essential tool for security personnel who require a portable and easy-to-use analyzer.

### Features:

Product Name: Narcotics/Explosives Detector

Application Field: Narcotics and precursors, Chemical weapons, Flammable and toxic liquids

Laser: 1064nm

Power: Rechargeable Li-ion Battery

Connectivity: USB / Wi-Fi / 4G / Bluetooth

Handheld Narcotics analyzer

Handheld raman spectrometer

# Characteristics

Automatic calibration without manual operation and external accessories

Able to detect small suspicious particles on-site by built-in microscope

Assess the risk of ignition and stop the laser automatically

Penetrate brown glass, some envelopes and plastic packaging

Small and light, it can be carried and operated easily

Total spectrum library is > 13,000 species, and the contraband spectrum library is > 3,000 species

Support for multiple languages

---

### Technical Parameters:

Product Name:	Easy Handling Handheld Raman Spectrometer Portable Raman Spectroscopy 1064nm
Laser:	1064nm
Delivery Time:	70-90 working days
Packaging Details:	Customized packaging to meet the needs of our customers. This can include individual carrying cases, bulk packaging for larger orders, and other options as needed.
Supply Ability:	20 units per 70-90 days
Application Field:	Narcotics and precursors, Chemical weapons, Flammable and toxic liquids
Weight:	730g
Result:	Name,Property,Spectrum,MSDS,Result-report
Size:	176mm* 87mm * 33mm

### Applications:

The JINSP RS1500 is also highly versatile, with a range of connectivity options including USB, Wi-Fi, 4G, and Bluetooth. This makes it easy to transfer data and results to other devices or to store them for later analysis. The analyzer also comes with a range of data formats including SPC, TEXT, JPEG, and PDF, making it easy to share results with others.

When it comes to certifications and standards, the JINSP RS1500 is CE certified and made in China. The minimum order quantity is 1, with negotiable pricing and payment terms of T/T. The supply ability is 20 PCS/70-90 days, with a delivery time of 70-90 working days. The packaging details are also highly customizable, with options for individual carrying cases, bulk packaging for larger orders, and other options as needed.

Overall, the JINSP RS1500 is a highly effective and versatile handheld narcotics and precursors analyzer that is perfect for a wide range of applications and scenarios. Whether you are a law enforcement agency, security personnel, or a business looking to increase security and safety, the JINSP RS1500 is the perfect solution.

# Application Field

## ✓ Narcotics and precursors

Heroin, Morphine, Methamphetamine, Ketamine, cocaine, MDMA, Fentanyl, Cannabinoid, Ephedrine, Safrole, etc.

## ✓ Chemical weapon

GB, GD, VX, HD, etc.

## ✓ Flammable and toxic liquids

Gasoline, Kerosene, Diesel, Methanol, Ethanol, nitromethane, Acetone, Benzene, Toluene, Acetonitrile, Tetrahydrofuran, Chloroform, etc.

## ✓ Explosives

Ammonium nitrate, Potassium nitrate, C4, Composition B, TNT, RDX, HMX, TNP, TATP, etc.

## ✓ Other

Starch, Sucrose, Vitamin C, Paracetamol, Analgin, Polyethylene, Polystyrene, etc.

The RS1500 detects liquid and small particle (panel interface can be switched to multiple languages)

### Support and Services:

The Narcotics/Explosives Detector product technical support and services include:

- Installation and setup assistance
- Product training and education
- Product updates and maintenance
- Warranty and repair services
- Technical consultation and advice
- Customization and integration services

### Packing and Shipping:

- Product Packaging:
- One Narcotics/Explosives Detector unit
- Power cord and adapter

Instruction manual  
Protective carrying case

## FAQ:

**Q1: What is the brand name of the Narcotics/Explosives Detector?**

A1: The brand name of the Narcotics/Explosives Detector is JINSP.

**Q2: What is the model number of the Narcotics/Explosives Detector?**

A2: The model number of the Narcotics/Explosives Detector is RS1500.

**Q3: Is the Narcotics/Explosives Detector certified?**

A3: Yes, the Narcotics/Explosives Detector is certified with CE certification.

**Q4: Where is the Narcotics/Explosives Detector manufactured?**

A4: The Narcotics/Explosives Detector is manufactured in China.

**Q5: What is the minimum order quantity for the Narcotics/Explosives Detector?**

A5: The minimum order quantity for the Narcotics/Explosives Detector is 1.
