## Best Handheld Raman Spectrometer 730g Rechargeable Li-ion Battery For Narcotics/Explosives

### Our Product Introduction

for more products please visit us on [spectralanalyser.com](http://spectralanalyser.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: JINSP
- Certification: CE
- Model Number: RS1500
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Customized packaging to meet the needs of our customers. This can include individual carrying cases, bulk packaging for larger orders, and other options as needed.
- Delivery Time: 70-90 working days
- Payment Terms: T/T
- Supply Ability: 20 units per 70-90 days

#### Product Specification

- Weight: 730g
- Laser: 1064nm
- Size: 176mm\* 87mm \* 33mm
- Application Field: Narcotics And Precursors  
Chemical Weapons  
Flammable And Toxic Liquids
- Highlight: **Best Handheld Raman Spectrometer,  
Explosives Raman Spectrometer,  
Narcotics Raman Spectrometer**

## Product Description

### Product Description:

The Handheld Narcotics and Precursors Analyzer is a compact and lightweight device, weighing only 730g. It is easy to handle and operate, making it a convenient tool for field use. The device is equipped with a rechargeable Li-ion battery, providing users with extended operation time.

The Body Analyzer Machine is designed to detect hazardous materials quickly and efficiently. It utilizes Raman spectroscopy, a non-destructive analytical technique that provides rapid, reliable, and accurate results. The device operates at a wavelength of 1064nm, enabling it to detect a wide range of substances, including explosives, narcotics, and chemical weapons.

With its advanced connectivity options, the Easy Handling Handheld Raman Spectrometer Portable Raman Spectroscopy 1064nm can easily be connected to USB, Wi-Fi, 4G, or Bluetooth. This allows users to transfer data quickly and efficiently, making it an excellent tool for sharing information in real-time.

### Features:

Product Name: Narcotics/Explosives Detector

Power: Rechargeable Li-ion Battery

Delivery Time: 70-90 working days

Database: Narcotics&Precursors,Explosives,Dangerous Liquid,Gem.etc

Application Field:

Handheld precursors analyzer

Handheld Narcotics analyzer

Chemical weapons

Flammable and toxic liquids

## Characteristics

Automatic calibration without manual operation and external accessories

Able to detect small suspicious particles on-site by built-in microscope

Assess the risk of ignition and stop the laser automatically

Penetrate brown glass, some envelopes and plastic packaging

Small and light, it can be carried and operated easily

Total spectrum library is > 13,000 species, and the contraband spectrum library is > 3,000 species

Support for multiple languages

#### Technical Parameters:

Product Name:	Easy Handling Handheld Raman Spectrometer Portable Raman Spectroscopy 1064nm
Product Category:	Handheld Analyzer
Size:	176mm* 87mm * 33mm
Application Field:	Narcotics and precursors, Chemical weapons, Flammable and toxic liquids
Operation:	5' Touch Screen,big Button,intuitive Man-machine Interface Operation
Laser:	1064nm
Data Format:	SPC /TEXT / JPEG / PDF
Result:	Name,Property,Spectrum,MSDS,Result-report
Packaging Details:	Customized packaging to meet the needs of our customers. This can include individual carrying cases, bulk packaging for larger orders, and other options as needed.

# Application Field

## ✓ Narcotics and precursors

Heroin, Morphine, Methamphetamine, Ketamine, cocaine, MDMA, Fentanyl, Cannabinoid, Ephedrine, Safrole, etc.

## ✓ Chemical weapon

GB, GD, VX, HD, etc.

## ✓ Flammable and toxic liquids

Gasoline, Kerosene, Diesel, Methanol, Ethanol, nitromethane, Acetone, Benzene, Toluene, Acetonitrile, Tetrahydrofuran, Chloroform, etc.

## ✓ Explosives

Ammonium nitrate, Potassium nitrate, C4, Composition B, TNT, RDX, HMX, TNP, TATP, etc.

## ✓ Other

Starch, Sucrose, Vitamin C, Paracetamol, Analgin, Polyethylene, Polystyrene, etc.

The RS1500 detects liquid and small particle (panel interface can be switched to multiple languages)

## Support and Services:

The Narcotics/Explosives Detector product is designed to detect and identify the presence of illicit drugs and explosives. It utilizes advanced technology to provide accurate and reliable results in a variety of settings, including airports, border crossings, and law enforcement agencies.

Our technical support team is available 24/7 to assist with any issues or questions regarding the functionality of the product. We offer comprehensive training and certification programs to ensure that all users are fully equipped to operate the device effectively and efficiently.

## FAQ:

**Q1: What is the brand name of the Narcotics/Explosives Detector product?**

**A1:** The brand name of the product is JINSP.

**Q2: What is the model number of the Narcotics/Explosives Detector product?**

**A2:** The model number of the product is RS1500.

**Q3: Has the Narcotics/Explosives Detector product been certified?**

A3: Yes, the product has been certified with CE.

**Q4: Where is the Narcotics/Explosives Detector product manufactured?**

A4: The product is manufactured in China.

**Q5: What is the minimum order quantity for the Narcotics/Explosives Detector product?**

A5: The minimum order quantity for the product is 1.

**Q6: Is the price of the Narcotics/Explosives Detector product negotiable?**

A6: Yes, the price of the product is negotiable.

**Q7: What are the payment terms for the Narcotics/Explosives Detector product?**

A7: The payment terms for the product are T/T.

**Q8: What is the supply ability of the Narcotics/Explosives Detector product?**

A8: The supply ability of the product is 20 PCS/70-90 days.

**Q9: How long does it take for the Narcotics/Explosives Detector product to be delivered?**

A9: The product is delivered within 70-90 working days.

**Q10: How is the Narcotics/Explosives Detector product packaged?**

A10: The product is packaged in customized packaging.
