

High Performance Portable Raman Spectrometer Handheld For Pharmaceutical Manufacturing

Our Product Introduction

for more products please visit us on spectralanalyser.com

Basic Information

- Place of Origin: CHINA
- Brand Name: JINSP
- Certification: ISO9001 CE
- Model Number: RS1500DI
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: International Shipping Package
- Delivery Time: 30-40 working days
- Payment Terms: T/T, Western Union
- Supply Ability: 100PCS/30-40 days

Product Specification

- Laser Wavelength: 1064nm
- Response Speed: ~15s
- Function: Qualitative Identification Of Compounds
- Spectral Library: 20000
- Weight: 730g
- Survivability: IP68
- Highlight: **Pharmaceutical Manufacturing Portable Raman Spectrometer**
, **High Performance Portable Raman Spectrometer**
, **Handheld Portable Raman Spectrometer**

Product Description

RS1500DI Handheld Raman Spectrometer

The JINSP RS1500DI is capable of conducting comprehensive package-by-package inspection for both raw and packaging materials. It efficiently identifies raw materials in various locations such as warehouses, preparation rooms, and production areas, facilitating rapid material release for pharmaceutical companies.

Utilizing a distinctive 1064nm laser, the RS1500DI offers a wide detection range, particularly effective for materials like amino acids, coenzymes, and cellulose that exhibit strong fluorescent signals.

Additionally, it adheres to regulatory standards including FDA 21 CFR Part 11 and GMP.

Technical Specification:

Item	Description
Laser	1064nm
Size	176mm*87mm*33mm
Weight	730g
Connection	Wi-Fi,4G,Bluetooth,Micro-USB
Operation	5' Touch Screen,big button,intuitive man-machine interface operation
Power Supply	Rechargeable lithium battery,4-6h
Detection Range	Chemical ram materials; Pharmaceutical excipients; Packing materials; Biochemical raw materials; Pigment excipients
Result	Name, Property, Spectrum, MSDS, Result-report

Technical Features:

Rapid detection capability: completes identification within seconds

Non-invasive analysis: detects through various packaging materials including glass, woven bags, and plastics

Portable design: lightweight construction enables flexible movement across different work environments

Instant analysis: eliminates sample preparation requirements, ensuring safety and simplicity

Precision recognition: utilizes advanced machine learning algorithms for accurate identification with high specificity

Wide Detection Range

- Chemical raw materials: aspirin, folic acid, nicotinamide, etc.
- Pharmaceutical excipients: salts, alkalis, sugars, esters, alcohols, phenols, etc.
- Packaging materials: polyethylene, polypropylene, polycarbonate, ethylene-vinyl acetate copolymer, etc.

Compared with ordinary 785nm Raman, it has stronger detection ability

- Biochemical raw materials: amino acids and their derivatives, enzymes and coenzymes, proteins,etc.
- Pigment excipients: carmine, carotene, curcuminchlorophyll, etc.
- Other polymer excipients: gelatin, microcrystalline cellulose, etc.

*perform 100% package-by
package inspection*

Handheld Raman Spectrometer

RS1500DI

RS1500DI is compliant with relevant regulations
such as FDA 21CFR Part11 and GMP

Technical Features

『 Wide detection range 』

chemical and biochemical raw materials and pigments can be identified

『 Convenient 』

it can directly detect through glass, woven bag, paper bag, plastic and other packaging

『 Compact and lightweight 』

It can be moved flexibly in warehouses, material preparation rooms, and production workshops etc.

『 Quick response 』

identification can be completed within seconds

『 No need to take samples 』

no need to transfer raw and auxiliary materials to the sampling room, which can avoid sampling pollution

『 Identification accuracy 』

Advanced machine learning algorithm supports accurate recognition

Product Advantages

- Wide detection range -

◆ Chemical raw materials

aspirin, acetaminophen, folic acid, nicotinamide, etc.

◆ Pharmaceutical excipients

salts, alkalis, sugars, esters, alcohols, phenols, etc.

◆ Packaging materials

polyethylene, polypropylene, polycarbonate, ethylene-vinyl acetate copolymer, etc.

◆ Biochemical raw materials

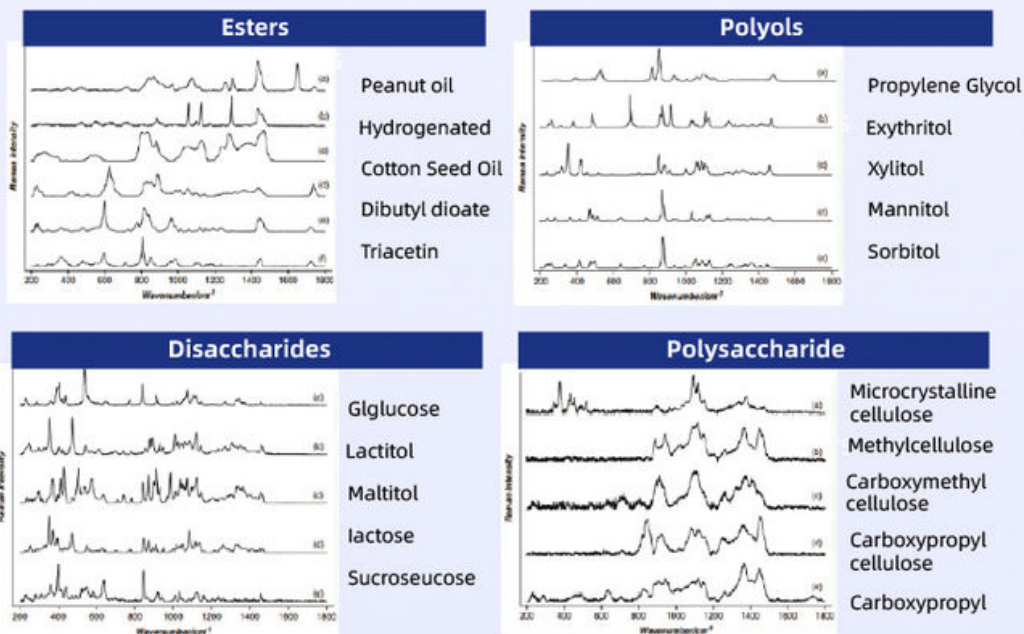

amino acids and their derivatives, enzymes and coenzymes, proteins, etc.

◆ Pigment excipients

carmine, carotene, curcumin, chlorophyll, etc.

◆ Other polymer excipients

gelatin, microcrystalline cellulose, etc.

- No sampling required -

It can directly detect through woven bags, plastic, glass, paper packaging, and other types of packaging.

Woven Bag

Plastic Packaging

Plastic Barrel

Plastic Barrel

Paper Packaging

- Wide application area -

Compact and lightweight, a single device can fulfill the requirements of multiple environments, including warehouses, material preparation rooms, and production workshops.

Company Introduction

JINSP Company Limited, abbreviated as "JINSP", is a professional supplier with over 17 years of experience in spectral detection technology products, including Raman, FT-IR, LIBS technologies, etc. After 17 years of technology accumulation, the company's core key technologies have reached the international leading position at the level, and the cumulative number of patent applications exceeded 200.

JINSP offers over twenty spectroscopic products across various fields, including pharmaceutical and chemical industries, public security, and customs. Products are available nationwide and are exported to over 30 countries, with cumulative sales exceeding 3,000 units.

Benefit from 30+ R&D engineers, including 4 Ph.D., JINSP is deeply rooted in the field of personalized product customization, and is committed to meeting the diverse and unique needs of customers with excellent professional technology and innovative design capabilities.

Company Profile

FAQ:

Q: What is the brand name of the pharmaceutical spectrometer?

A: The brand name of the pharmaceutical spectrometer is JINSP.

Q: What is the model number of pharmaceutical rapid identification?

A: The model number of the pharmaceutical spectrometer is RS1500DI.

Q: Is the pharmaceutical rapid identification Spectrometer certified?

A: Yes, It is and it is certified with CE as well.

Q: Do you have MOQ requirement of each order?

A: No, we support order for even 1pc order.

Q: What is the product warranty?

A: All product has 1 year warranty, support extending warranty period with extra cost.
